#### HER HAIR SLASHED OFF.

Nashua Girl Victim of a "Jack the Slasher."

Nashua, N. H., Feb. 7.—Little Agnes Snow, aged 14, of 16 Orange street, went out walking with her smaller sister last evening. When she came back her mother discovered that about eight inches of her beautiful black hair done up in a braid was missing. All the explanation she could give to account for the missing locks was that a man jostled her near Blake's greenhouses. He apologized profusely, she said, and then went his way. She didn't find out until she reached home that a portion of her adornment had disappeared.

The only description she could give of the jostler was that he was a short man with a long overcoat.

#### No Cut Rates.

Justice Pickering, of Springfield, does not believe in cheap labor. The other day he married a couple and indignantly spurned a tender of \$1.25 for his services. "I never paid any more than that for getting married," remarked the bridegroom. "But I am not dealing in cut-rate marriage services," replied the Justice. Then the bridegroom offered to make it \$1.50. The Justice remained adamant. He said his rate was \$2 and the bridegroom must produce. "Ain't I worth \$2?" asked the bride. "I suppose you are," said the bridegroom, and with a heavy sigh he paid full fare, but warned the Justice that he would never come to him again to get married.—Jefferson City Tribune.

#### Effect of "The Ambire."

It is said of Henry Ambire, a mule dealer of Jefferson City, that his friends in St. Louis can invariably gauge the shipment he has been disposed of on a good market the first place he seeks after settling up with the stock yards people is Tony Faust's cafe, where he orders seven or eight pounds of cold roast beef and eats it with relish that would break the heart of a dyspeptic through sheer envy. If the market happens to be a little short of his expectations, four or five pounds will suffice. It is said that a poor market is the only thing that has ever been known to affect his appetite.—Kansas City Star.

Just Beginning to Grow Corn.

Up to the beginning of this young century our amazing development in corn production is merely a record of enlarging areas. Average yields per acre were as good forty and fifty years ago as now. A new condition confronts this generation—we can no longer make vast additions to the area. Increasing yields per acre is the future corn problem. In the light of recent developments we may almost say that we have just begun to raise corn. Holden, Hopkins and others are showing the way, which is not closed to any one. Our possibilities are immeasurably greater than anything has been seen if we but study the problem of greater yields. Let us be grateful for corn, for the fair reward it brings us, for the lifeblood it puts into our business and physical being, for the knowledge now available to us and for the promise that its golden harvest shall not dwindle in years to come.—National Stockman.

## The Daylight Store

### THERE IS NO REASON

Why ladies cannot have the best that their money will buy when it is right here in our city. We call attention just now to the following new things in the way of NEW WASH GOODS—goods that had their wrappers taken from them today.

#### WASH GOODS

We have nearly all kinds of goods made by the Arnold Manufacturing Company of North Adams, Mass. Here are some of them:

Silk Effects have floral designs over a ground that looks like silk. Price, 14c per yard.

Henley Serges, which are advertised in all the popular magazines. They have all the lustre and style of Panama. The price is 18c per yard.

Arnold Batiste in dark and light colors. These come in perfect colorings and have the effect of fine Wool Voiles. Price, 17c per yard.

#### WASH GOODS

Shepherd Checks in the Mercerized cloths are bound to be better than last season. Here is an imported Shepherd Check that is far ahead of domestic goods at same price, in black and white, navy and white, heliotrope and white and reads green and white. Price, 25c per yard.

Ask to see those Harlequin Zephyrs in checks with broad patterns at 25c per yard.

We have a few more of those Silk Warped Eolennes in browns at 25c per yard.

New ideas coming and going in Wash Goods every day.

#### WHITE WASH GOODS

We can give you cloths in White Wash Goods that you cannot get elsewhere.

First, if you are using White Lawn, you ought to have the Shrunken Lawn. It comes forty inches wide and in three qualities. We keep all that they make: 20c, 25c and 30c. If you use it once that will be enough to make you a Shrunken Lawn customer. It's one of those things that you will be glad to know about.

We have just opened up today a lot of Mercerized Waistings with damask flowers over an Oxford ground. They are a job lot of 50c goods now at 25c. Very desirable.

Children just now need Winter Garments more than at any time this Winter. Ours are at half price. A five-dollar Garment for \$2.50.

## A. P. ABBOTT & CO.

#### THE ROYAL BOX.

King Edward for many years wore a size 7 hat, but his size at present is 7 1/2.

The king of the island of Nukou, Caroline Islands, is also the preacher and the teacher for his people.

Prince Louis of Battenberg has another distinction besides that of having paid a dentist \$1,000 for the filling of four teeth. He is a printer and can set up his 1,000 ems in very good time.

Nobody seems to know what manner of man the Prince of Wales is. He keeps as much in the background as his popular father kept to the front in his mother's day, and there has been no sign of what his tastes or inclinations are as far as the world beyond the royal circle knows.

Queen Natalie, mother of the murdered King Alexander of Serbia, has asked permission to remove her son's body from Belgrade to the monastery of Kronsbedel, where his father, King Milan, is interred. The emperor of Austria-Hungary has joined in the appeal, but there is little chance of the Serbian authorities granting it.

#### Labor Settlings.

The "List Glass Workers' International union, one of the strongest of all, has reduced its strike assessment from 7 to 4 per cent.

The 100 principal trades unions of Great Britain have a membership of 1,648,640, with an aggregate income of \$10,368,000 annually.

Many unions in Great Britain pay out of work, sick, funeral, superannuation benefits and in addition have a special fund to provide homes, etc.

What is believed to be the first labor union on the Pacific coast of automobile drivers and helpers has been formed in Los Angeles. A charter was granted by the International Brotherhood of Teamsters.

The Brotherhood of Railway Trainmen has been in existence twenty-three years; it has 728 lodges, with 78,000 members, \$1,500,000 in its treasury, pays out \$140,000 every thirty days in claims, has more than \$57,000,000 insurance in force and has paid out \$11,612,686.13 in benefits.

#### Dairy Interests in New York.

I am sure the dairy interests in New York are yet in their infancy. More and more the growing of the rough, coarse, unskillful crops like hay and grain for market is destined to pass, and the finer arts of feeding cows and manufacturing milk products are to be the foundation of the agricultural prosperity of our state.—Professor Beebe, New York.
